UNITED STATES GOVERNMENT

Memorandum

TO : C/SMS

DATE: 29 June 1965

FROM : DAD/S&D

SUBJECT:

The modification of aircraft was ever thus. If []
[] however, has appropriate drawings from [] and if
[] inspection is proper and if the Air Force inspector
has to sign off on the job we need not be overly concerned. I am a
bit concerned, however, about an [] engineer on the site giving
[] instructions as to what is going on. He should be
talking to the Air Force inspector. I don't think [] has authority
to do this at the moment nor do I believe [] is not
authorized to take this kind of work direction. In your conversations
with [] I think that it should be indicated that [] volunteers
to assist the Air Force inspector involved.
